WORK EXPERIENCE

Web Full Stack Internship, Sala Tech   JAN 2025 - JUNE 2025
- Responsible for developing a full-stack web application using Laravel, Vue.js, and PostgreSQL.
- Key features of the project include managing survey forms for all public schools, managing questions and answers, tracking missions for evaluating school submissions, and calculating scores based on answers and evaluations, categorized by school or category.

Web Full Stack Internship, UYFC (Kampong Cham)   JULY 2024- SEP-2024
- Responsible for developing a full-stack web application using Nest.js, Angular, and PostgreSQL, with a main focus on API development.
- Key features of the project include managing members, recording financial information, managing administrative letters and events, and sending notifications to Telegram.

POS Management System (Learning Project)   FEB 2024 - MAY 2024
- Developed a POS (Point of Sale) Management System using Laravel, Angular, and MySQL, with a main focus on API development to manage sales transactions, inventory, customer information, and reporting.
- Key features include product management, sales processing, inventory tracking, customer management, and generating sales reports.
- The system helps streamline retail operations and improve accuracy in sales and stock management.

E-Commerce Website (Learning Project)   DEC 2023 - FEB 2024
- Developed an eCommerce web application using Node.js for the back-end, React for the front-end, and MySQL for the database.
- The system allows users to browse products, add items to a shopping cart, place orders, and manage user accounts.
- Key features include product management, shopping cart functionality, order processing, user authentication and order tracking.

TECHNICAL SKILLS

- **Proficient Language:** Python, Java, C++ and C
- **Web development:** HTML, CSS, JavaScript
- **Frontend Framework:** Vue.js, React.js and Angular
- **Backend Framework:** Laravel and Nest.js
- **Database System:** MySQL, PostgreSQL and MongoDB
- **Tools:** VSCode, Docker, Git, MySQL Workbench, PgAmdin and Postman

EDUCATION
